

## STILL NOT CONVINCED?

See what some of our clients have to say

“We tried a variety of hearing protection before we contacted At Source QX Ltd who offered their ProtectHear® range, these are individually moulded to the user and offer outstanding comfort and protection.

We carried out a trial with the ProtectHear® and we haven't looked back since, the company's professionalism and expertise is commendable, they applied no pressure to purchase, it was simple good advice.”

### George Connelly

Eco Plastics Recycling Ltd

“I prefer ProtectHear® to disposable ear plugs as they are very easy to fit and comfortable in use and an added bonus is that the cost savings are genuine compared to disposables.

When you start to do the maths in comparison to using 4-5 pairs of disposable earplugs a day the money saving over the life span of the ProtectHear® which are purchased with a one off payment becomes quite significant.”

### Shaun Penn

EDF Energy Ltd

**Speech, warnings  
& alarms still audible.  
5 year lifespan.**

**Maximum comfort  
& superior fit, allows  
ears to 'breathe'**

# DEPENDABLE COMFORT AND PROVEN PROTECTION FROM THE UK'S LEADING SPECIALIST

Ability to wear with other PPE

Does not overprotect, still hear speech

Easy to look after and clean

Actively used by over 900 companies throughout Europe.

With 100% dependable and comfortable hearing protection that will not overprotect or be impeded by other forms of PPE.

We are very proud to be arguably the largest provider of personally moulded ear plugs in the UK and Ireland, and pride ourselves on a reputation of unbeatable service.

At ProtectHear® it isn't just a product we provide it's the service we give to our customers that makes us unique.

## WHY CHOOSE PROTECTHEAR?

Key features and benefits

### UNIQUE REFERENCE NUMBER

mapped to the individual. This allows us to find your impressions for replacement pairs without having to repeat the ear impression process.

### HYPO-ALLERGENIC SILICONE

medical grade silicone earplugs are made from toxicologically inert material.

### OPTIONS TO SUIT ALL

available in a choice of 4 colours, as either vented 29SNR or solid 31SNR, in either canal or full shell earmoulds, and with a metal detectability option and various filters available they really can be made to suit all.

### CE & UKCA APPROVED

CE Marked Personally Moulded Re-Usable Ear Protection To EN 352-2: 2002. UKCA Marked Personally Moulded Re-Usable Ear Protection. PPE regulation 2016/425 as brought in UK Law and amended.
